JOURNAL PACKAGES

Information on money-saving ways to buy journals such as...

Atmospheric Environment
Biochemical Pharmacology
Environmental Pollution
Life Sciences
Neuropharmacology
Neuroscience
Tetrahedron Letters
Trends in Pharmacological Sciences

Which Libraries Benefit?

Those libraries which take all the journals from a package will see an immediate benefit and saving. Libraries which take all but one of the journals may find that they can buy the missing title for a nominal amount.

What Should Libraries Do Next to Take Advantage of These Packages?

Subscription Agents have been informed about these money-saving packages and are in a position to help librarians take advantage of the savings offered. You may, of course, contact your nearest Regional Sales Office directly for more information and help.
